

MANDAZA

Mandaza comes from Zimbabwe, Africa, a country with dire challenges of starvation, disease, drought, political corruption and staggering inflation. In addition, a cholera epidemic compounded the challenges faced by the Zimbabwean people. All money collected for Mandaza will be his only source of funds to support his large extended family and community for basic needs such as food, water, gas, clothes and education fees for many children. Your support is received with tremendous gratitude.

Date
July 10-12, 09

Where
**Northern Edge
Algonquin**

Cost
**\$350
(program)**

**\$100-175/night
(meals/accomms)**

Listening to Our Hearts and Standing in Our Medicine

A Retreat/Intensive with African Healer, Mandaza Kandedmwa

Photo courtesy of Michael O'Brien

Mandaza (Augustine) Kandedmwa, a Svikiro (traditional healer) and Mhondoro (in constant prayer for others), in the Shona and Ndebele traditions of Zimbabwe, carries with great heart the Central African tradition of healing and peacemaking. Mandaza's visit provides an extraordinary opportunity to experience and receive his gifts of wisdom, love, healing and peacemaking. His outstanding gifts are being sought out and called upon in this critical time period as Mother Earth heals and re-balances. In our world of war, poverty, starvation and intensive environmental change it is time to learn the ways of the heart and peacemaking, to cultivate a culture of peace and love, and to be the change that the world wants to see.

This is your opportunity to take care of your spirit and build your strength and engage in the renewal you need to "stand in your medicine".

Take the time to benefit from the many teachings, beauty of the north and the nourishing food for your body, heart and soul. Teachings, individual sessions and water and fire ceremonies will address questions such as those at right:

- How do we balance the mind with the heart?
- How do we listen to our hearts and carry the messages into the world?
- What obstacles are in the way and how are these to be removed?
- What are the spirits around you asking of you and wanting to share with you?
- What gifts and medicine are you called to share in the world?
